

PRACTICE PROFILE

preventous has two practice locations in the heart of Birmingham, Alabama. The practice sees a mix of medical and cosmetic patients throughout the day. 50% of the practice is cosmetic. The practice management system has empowered their practice to achieve better efficiency and practice growth.

CHALLENGE

The practice was struggling with a fragmented system that was not integrated with their existing medical records. This led to inefficiencies in patient care and administrative tasks. They needed a solution that could streamline their workflow and improve patient satisfaction.

SEARCHING FOR A BETTER SOLUTION

After evaluating several options, the practice chose a solution that offered a comprehensive suite of tools designed for cosmetic medicine. This new system provided a unified view of patient information, automated appointment scheduling, and enhanced communication with patients. The result was a more efficient practice and a higher level of patient care.

"The new system has transformed our practice, allowing us to serve our patients better while also improving our bottom line. It's truly a win-win for both the business and the patient side."

The emily difference

Since implementing emily, the providers and staff of Preventous Cosmetic have seen immediate positive results.

A UNIQUE SOLUTION FOR STUNNING GROWTH

As Preventous Cosmetic has grown, emily has grown with them. **emily has helped the Preventous Cosmetic integrate their entire practice with emily's solution.**

Thanks to emily's Injection Templates, Charting, and Photography tools, **Preventous Cosmetic has significantly reduced the number of clicks** and freed up staff to perform other more important tasks.

*"emily as a company understands the unique needs of cosmetic medicine practices and **constantly evolves its software with the changing needs of the industry.**"*

*Maggie Albertsyn
Preventous Cosmetic - Clinic Manager*

WHAT WE LOVE ABOUT emily

- Robust Reporting/Analytics
- Points Program
- Integrated Photography
- iPad Charting
- Injection/Treatment Templates

EVER EVOLVING SOLUTIONS

Dedicated to innovation and investing in long term partnerships, **emily is committed to providing a solution that evolves with clients like Preventous Cosmetic over time.**

emily meets its clients where they are, helps practices **optimize**, all while **growing** with you and your **unique, specialized needs** over time.

*"We see dozens of cosmetic patients per day at Preventous Cosmetic. **If we can spend less time documenting and more time interacting with patients, that helps our bottom line enormously.**"*
